

Teacher Frequently Asked Questions

Congratulations on using ABCmouse.com in your school to extend learning home. Here are answers to some of teachers' frequently asked questions, as well as resources for getting started with ABCmouse in the classroom.

How Do I Set Up My Classroom and Students' Learning Paths?

We've created several training videos to help you utilize your classroom, manage the step-by-step learning path, send work home and much more. Click [here](#) to access the videos and get started!

How Should I Describe Our Classroom Partnership with ABCmouse to Families?

Your partnership with ABCmouse bridges the gap between school and home with online learning that is ad-free, fun and aligned with your curriculum. Your classroom lessons are enhanced with ABCmouse activities and children can build upon that knowledge at home with an engaging online experience.

Are the Lessons Extended Home Considered Homework?

No, the lessons are at-home activities that complement your curriculum goals and provide skill-building activities while at home. They offer children a way to interact with technology in an educational and fun way.

How Do ABCmouse Activities Complement My Curriculum?

ABCMouse.com has over 7,000 activities that support the early learning framework and core competencies. Each ABCmouse lesson is tied to one of the domains and the elements within it. ABCmouse activities are designed to help build the same skills you are working on through your curriculum. See our Core Competencies outline for more information.
